### STUDY HABITS OF SALMON

Fishing Experts Claim to Have Made  
Important Discoveries Through  
Observations Last Year.

The commissioner of fisheries of  
British Columbia states that an im-  
portant discovery was made through  
investigations carried on by that de-  
partment during the last year. It  
was found that all species of salmon,  
including the sockeye, were found  
feeding on Swiftsure bank, off the  
coast of Vancouver island, upon a  
small shrimplike crustacean that  
floats in incredible numbers on the  
tides and forms a favorite food with  
all varieties of salmon. Heretofore  
the feeding habits of the sockeye  
have been unknown, although thou-  
sands of specimens from different  
waters have been examined. This  
led to the theory that the Fraser  
river sockeye come annually from  
some distant feeding ground and be-  
gin fasting as soon as they start on  
their shoreward migration. It is now  
thought that the young salmon on  
passing out from the straits distrib-  
ute themselves in the adjacent waters  
of the sea, and during the years of  
their growth wander far and wide in  
search of food, returning to the  
mouth of their natal stream when  
maturity is reached. Neither in the  
case of the sockeye nor in that of any  
other species was there found any  
basis for assuming a definite migra-  
tion in the sea in any direction. More  
probably there is something in the  
nature of a fanlike dispersal of  
young from the mouths of their na-  
tive streams and a reverse movement  
as spawning time approaches.

### WELL WORTH THE TRAINING

Farm Boy Will Return All the Care  
and Attention That Can Be Be-  
stowed on Him.

The finest young animal in the  
world is the farm boy, and the most  
interesting work is to watch his de-  
velopment, asserts a writer in the  
Breeder's Gazette. It is a wise father  
who, in plowing the garden, leads the  
horse and lets the boy hold the cul-  
tivator handles. It is a wise father  
who turns the handle of the grind-  
stone while the boy holds on the tool,  
meantime suggesting to him things  
he has by experience learned about  
the best ways of making the edge  
sharp. It is fine when there wells  
up within the boy a feeling of re-  
sponsibility, a desire to do a thing,  
when he takes the initiative in the  
work. After that the father can  
have the joy of knowing that there  
is a young pilot at the wheel, need-  
ing counsel and directions from time  
to time, but sure to develop skill  
and likely to bring safely into port  
the ventures of the farm. How early  
can the boy be led to accept respon-  
sibilities and take interest in the  
work and development of the farm?  
It is impossible to say definitely, but  
as early as the lad begins to think  
and reason he can easily be led to  
put his personality into the little  
things of farm life, and, strength-  
ened by experience and counsel, to go  
on to larger things.—Breeder's Ga-  
zette.

### LAUNCHED ON TRACKS.

A system has recently been in-  
vented which is designed to make  
the launching of lifeboats from the  
deck of a ship a direct and safe  
process, and to overcome the dan-  
gers and uncertainties of launching  
loaded boats with davits or of trans-  
ferring the passengers from the ship  
to the boats by means of swings. An  
inclined railway track runs from  
each deck down the side of the ship  
to a point below the water line, the  
tracks on one side running down-  
ward from the stern toward the  
bow, and those on the other side  
running from the bow toward the  
stern. By this arrangement both  
ends of the ship can be served at  
the same time under ordinary con-  
ditions, while it provides an avenue  
of escape if one end of the ship is  
sinking rapidly.—Popular Mecha-  
nics Magazine.

### WEAR KNEELETS OF GOLD.

Kneelets made of gold and set  
with precious stones have appeared  
in the streets of Philadelphia. They  
are worn by slit skirt promenaders as  
one step more daring than the golden  
anklets which startled gazers a year  
ago.

The kneelets apparently are made  
to fit closely just below the knee  
and to glisten and glitter as a wear-  
er's stride causes the slit in her skirt  
to open and close. One jewelry house  
says it is receiving a greater de-  
mand for them than it can supply,  
and that it is furnishing them to  
women in exclusive social circles.

### 30,000 VOICES!

And many Are The Voices Of  
Hopkinsville People.

Thirty thousand voices—What a  
grand chorus! And that's the num-  
ber of American men and women  
who are publicly praising Doan's  
Kidney Pills for relief from back-  
ache, kidney and bladder ills. They  
say it to friends. They tell it in the  
home papers. Hopkinsville people  
are in this chorus. Here's a Hop-  
kinsville case.

Mrs. I. P. Duke, 655 O'Neal St.,  
Hopkinsville, Ky., says: "I had  
pains across my back and sides, as  
well as other troubles, caused by  
weak kidneys. Seeing Doan's Kid-  
ney Pills so highly recommended, I  
got a box and used them as directed.  
They promptly cured me and since  
then, I have had no further need of  
a kidney medicine. I can recommend  
Doan's Kidney Pills, as they do just  
as advertised."

For sale by all dealers. Price 50  
cents. Foster-Milburn Co., Buffalo,  
New York, sole agents for the United  
States.

Remember the name—Doan's—  
and take no other.

Don't Let Baby Suffer With  
Eczema and Skin  
Eruptions.

Babies need a perfect skin-cover-  
ing. Skin eruptions: use them not  
only intense suffering, but hinder  
their growth. Dr. Hobson's Eczema  
Ointment can be relied on for relief  
and permanent cure of suffering ba-  
bies whose skin eruptions have made  
their life miserable. "Our baby was  
afflicted with breaking out of the  
skin all over the face and scalp.  
Doctors and skin specialists failed to  
help. We tried Dr. Hobson's Eczema  
Ointment and were overjoyed to  
see baby completely cured before  
one box was used," writes Mrs.  
Strubler, Dubuque, Iowa. All drug-  
gists, or by mail, 50c.

FFEIFER CHEMICAL COMPANY,

The Last Word.  
"What's the first word in the dic-  
tionary?" asked the student. "The  
article 'a,' of course," replied Mr.  
Growcher. "And what's the last  
word?" "Ask my wife. She's an ex-  
pert on the subject."

New Series Of Stock Soon To  
Be Issued.

The Hopkinsville Building & Loan  
Association will open its books for  
subscriptions for stock in the sixty-  
fourth series, on October 1st, 1913.
